

# Ambient Light Harvesting, Smooth Battery-Free Use

## M10 Ambient Light Harvesting Asset Tag

Totally powered by ambient light, the M10 is a sustainable battery-free asset tag. By harvesting energy from ambient light, M10 transforms it into electricity to achieve continuous work. It is completely self-sufficiency and eliminates the battery needs. Supporting BLE6.0, it has advanced Bluetooth transmission capabilities, ranging up to 150m in open areas. Its compact design and easy sticker installation make M10 suitable for various tracking scenarios like warehouse, factory and more.

### Features

Compact design

Supports BLE 6.0

Ambient light power supply

Battery free

Operates stably in ultra-low\* light conditions

### Application scenarios

Construction

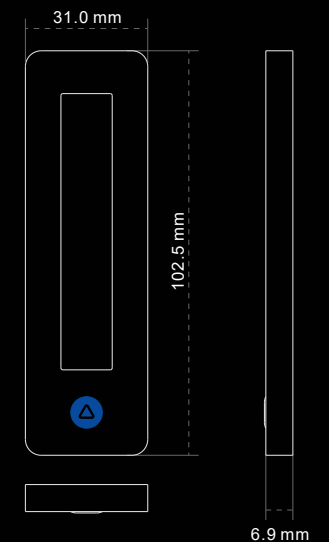

Factory

Warehouse

### General specifications

Connectivity	BLE 6.0
Dimensions (mm)	102.5*31*6.9
Color	White
Material	PVC Foam
IP rating	IP65
Sensor	No
LED	Red
Recommended operating light intensity	150-10000lux
Operating temperature	-20°C/40°C
Transmission range	Up to 150m (492 feet) in open space
Installation	3M tape

\* Tested on 150lux indoor ambient light conditions
